Additional Licensing Requirements: It is the student's responsibility to be sure that the PRAXIS test has been passed and that BYU has received the test scores and that their fingerprint background clearance is current. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements, contact the Education Advisement Center, 350 MCKB, (801) 422-3426. Graduation and Utah licensure cannot be processed until these requirements have been completed.

THE DISCIPLINE:

Special Education is an important teaching discipline that emphasizes assessment, classification, and teaching to optimize the potential of students with disabilities. The undergraduate program prepares competent and moral educators who select, implement, and evaluate research-based effective teaching practices and appropriate curriculum for learners with special needs. Two areas of emphasis are available within the undergraduate program: students with mild/moderate disabilities and students with severe disabilities.

CAREER OPPORTUNITIES:

A degree in Special Education leads to opportunities for teaching students with individualized educational needs in public and private schools, grades K-12. An ongoing lack of qualified special education teachers provides abundant career opportunities.
