

# BS in Athletic Training (663421) MAP Sheet

## Life Sciences, Exercise Sciences

For students entering the degree program during the 2017-2018 curricular year.

This is a program that requires a secondary application process. Apply for acceptance into the athletic training program during semester of enrollment in ExSc 320. See the program director or ExSc 320 instructor for an application packet.

Admission to the program requires the candidate to meet the following criteria:

- Complete PDBio 220, 305 (Prerequisite: Chem 101), ExSc 320, 321. (ExSc 320 and 321 **must** be completed at BYU.)
- Complete the athletic training education program application, which includes an essay.

#### THE DISCIPLINE:

The study of athletic training appeals to those who would like to work in a field that combines an athletic setting with health and medical care. A student in athletic training will learn to apply knowledge of human anatomy, exercise physiology, conditioning, nutrition, and therapy in the prevention, diagnosis, immediate care, and rehabilitation of athletic injuries. Students must graduate from an accredited athletic training program and pass the Board of Certification (BOC) examination to certify as an athletic trainer.

#### CAREER OPPORTUNITIES:

Career possibilities include working with athletic teams at all levels of competition, in a sports medicine clinical setting or other allied health care facilities, or in a corporate/industrial setting. Certification (BOC) is required and an advanced degree is recommended.

Certification (BOC) is required and a teaching certificate or advanced degree is recommended for some job positions. Many opportunities are available for graduate studies in the field of athletic training and other related disciplines (i.e., exercise science, health promotion).

Average starting salary for an athletic trainer with a bachelor's degree ranges from \$30,000-\$40,000, depending on location and qualifications. Completion of a teaching certificate or advanced degree will increase potential earning power.

For more information on careers in your major, please refer to *From Major to Career*, a publication which is located in all college advisement centers.

#### MAP DISCLAIMER

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
