THE DISCIPLINE

Students preparing to teach physical education and/or coach will have a variety of experiences that will enhance proficiency in the knowledge and skills requisite to working in the contemporary school setting. Majors learn to perform a variety of sport, fitness, and dance activities. After becoming proficient, students take courses and have practical experiences in teaching and coaching children, adolescents, and adults. The discipline is interesting and rewarding, and those in a teaching/coaching career help others pursue and practice healthy lifestyle habits.

CAREER OPPORTUNITIES

Graduates seek teaching and physical education/ coaching careers in elementary and secondary educational settings. With an advanced degree, teaching and coaching positions at institutions of higher learning are available. It is recommended that students desiring to be optimally employable in secondary schools complete an approved teaching minor.

ENTRANCE TO PROGRAM

This program accepts all students who meet the admission requirements, but prior to beginning course work in the major, you must complete entrance forms.
